

For long-lasting beauty  
and resilience

**FLOORS**

**PRISMATIC** RANGE

Complete Concrete Solutions

## Are expensive repairs to pavers causing a hole in your pocket?

Despite efforts to create visually appealing landscapes, surfaces often suffer from cracks, unevenness and poor finishes, thus detracting from their aesthetic appeal and durability.

Invasive weeds frequently infiltrate paver blocks surfaces, compromising their integrity and requiring ongoing maintenance to control. Surface imperfections and weed infestations not only compromise the visual appeal but also necessitate costly repairs and regular maintenance, imposing financial burdens on property owners.

### Introducing

**PrismDecor**, from the Floors Prismatic Range, is a colourful concrete available in various shapes, sizes, and patterns and is designed to make playgrounds, pavements, gardens, and parking areas beautiful and long lasting.

It offers a solution that combines durability with vibrant aesthetics, providing property owners and architects with a masterpiece that enhances the visual appeal of any landscape.

Installation of PrismDecor is straightforward, and its maintenance costs are significantly lower as compared to traditional materials, providing property owners with a hassle-free and cost-effective solution for maintaining vibrant and appealing surfaces.

PrismDecor addresses the challenges of safety hazards and environmental degradation offering a seamless, durable and environmentally friendly solution.

### Applications

1. Pedestrian walkways, footpaths and cycle tracks
